

TV Instructions

1. Turn on TV

2. Using the outer circle
On the remote, select
Connected devices, then press
Amazon firestick and press
Centre of remote

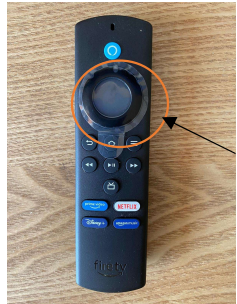

3. You will see this screen

4. Using this remote,
the circular area of the
remote (outer for
Up, down, left right)
and Inner for select

5. Select Super Beams

6. Again, Using the
circular area Of the
remote (outer for
Up, down, left right)
and Inner for select

7. You will want to
select "Live TV"

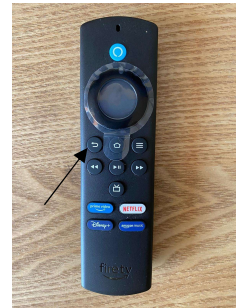

8. Using the cursor again select the
genre on the left hand side, the
middle will then give you a list of
channels, using the circular area
select the channel and press centre
to select

9. The image of the programme will
appear on the right hand side like
this. To make this to the entire
screen, just press the programme
(in the centre) again.

10. You will then see the programme
on the full screen

11. To go back to
the programme list,
press the back
button then repeat

12. You also have the options of movies and series. To go back to number 9 you need to press the back button until you reach that screen then using the cursor select movies or series and follow same procedure at 10 onwards. If you scroll down further on Number 10, you Will see a selection in different languages.
